OPERATORS AND MINERS AT ODDS

Agreement Out of the Question
at Present, but a Strike
Improbable.

Philadelphia, April 9.—Although a disagreement was reached at the concluding conference of the anthracite operators and miners today concerning the question of a wage agreement in the hard coal fields of Pennsylvania, it will be no strike nor any danger of suspension of mining, according to the mine workers' officials, from the possibility of the refusal of the operators to permit the miners to work without any agreement.

Statement of Operators.

New York, April 9.—The following official statement was given out here today by the anthracite operators' committee of seven:

"The representatives of the anthracite mine workers have declined to accept the proposition signed by the representatives of the operators to extend for another period of three years the award of the anthracite coal strike commission appointed by the president of the United States.

"The present basis of wages was established in a time of greatest prosperity the country has ever known. In offering a continuance of the same wages through years of depression, the operators are assuming a responsibility beyond which they cannot venture to go.

"After submitting their proposition for a renewal of the agreement the operators made a concession in order to rectify what the mine workers declared to be a source of trouble. At yesterday's conference the operators acceded to the request that questions as to the rates of payment for new work should be placed under the jurisdiction of a board of conciliation.

"This was the one matter in which, according to the claims of the mine workers' representatives, the men had not been able to obtain satisfaction from the board of conciliation. With this included, all possible questions under dispute between employees and employers can now be settled by the board."

FUNERAL WILL OCCUR MONDAY

Body of Petrosino, the Murdered New York Detective,
Arrives From Palermo.

New York, April 9.—Flags flying at half staff above the city hall and police headquarters today marked the arrival on the steamer Slavonia of the body of Lieutenant Joseph Petrosino of the New York police department, who was assassinated in Palermo, Sicily, on March 12, while engaged in a specially important task of protecting America against Sicilian criminals. The police department, city officials, Italian societies and citizens will unite in giving further expression of tribute to Petrosino on Monday when his funeral will be held.

On arriving at the quarantine station today the Slavonia was met by the police boat Patrol, to which the body was transferred from the steamer and conveyed to the landing place at the Battery.

Guarded by Police.

Thence the body was escorted to the Petrosino home, to be guarded by police until after the funeral. The transfer of the body from the ship to the Patrol was witnessed by a committee of citizens, including a number of prominent Italians who went down the harbor on a tug, and participated in the ceremonies attending the landing.

Until the day of the funeral mourning flags will be flown from hundreds of windows in the Italian colonies. Unusual honors expressive of the city's appreciation of Petrosino's courage and devotion to duty will be shown during the funeral on Monday. Solemn high mass will be celebrated in St. Patrick's pro-cathedral and, after the service, the body will be escorted to Calvary cemetery by a parade of police and many societies. "Taps" will be sounded at the grave. Many flowers, including a wreath from Mayor McClellan, have been sent to the Petrosino home, and a movement is under way to provide Mrs. Petrosino and the detective's child with a permanent home and ample funds.

FOREST SERVICE TO TAKE CHARGE OF WATER SHED

City to Complete Contract Long Held
Up—Government Better Able
to Control.

It is probable that the city will at once complete the contract with the United States forest service by which the watershed belonging to Salt Lake will be under the care of the forest service. This contract was drawn a long time ago and was placed in the hands of the city engineer. Its completion was delayed by some technicalities. Now the forest reserve people are anxious to take over the watershed and it will probably be handed over to them without further delay.

Yesterday Mayor Bransford received a letter from Robert R. Reynolds, acting forest supervisor, stating that, on taking charge of the office he had found this uncompleted contract, providing for the transfer of the service of the control of all city lands within the general outlines of the Wasatch national forest for purposes of fire protection and eventual reforestation. The contract, he says, has met with the approval of the officials at Washington and lacks only ratification by the city. Clifford Pinchot, head of the service, on his trip to Utah recently urged that this be obtained.

The present broken boundaries of the Salt Lake division of the forest, Mr. Reynolds says, are inconvenient, and it would be better for both the city and the service to handle the whole as a unit.

City Engineer L. C. Kelsey says that the contract had been in the hands of A. F. Doremus, assistant engineer, and had been referred back for some minor changes. It is thought by him to be eminently to the advantage of the city, as the government is in a much better position with its larger scope and authority to handle the work of fire protection and take care of the watershed.

Women's gingham aprons, special

A splendid assortment made in very neat, slipover models. Saturday the one day, you select at only 25c

Children's school aprons, special

Neat little madras and gingham affairs in pink, blue and gray stripe. Bretele style. Ages 6 to 12 years. Your choice 25c

Vests 10c
Sleeveless vests, in splendid 15c values—Saturday you select at the garment, 10c.

NEW RED DEVIL ARRIVES.

City Engineer Equipped for Fast Inspection Work Now.

City contractors have now no means of knowing just when City Engineer L. C. Kelsey will swoop down on their work. His new red devil authorized by the city council in the recent budget arrived yesterday and was immediately placed in commission. The buzz-wagon is a dark red Chalmers-Detroit 30-horsepower machine.

Yesterday the city engineer made a visit of inspection to most of the big city jobs now under way, taking in the outlet pipe for the intercepting sewer in the northwestern part of the city, curb and gutter extension No. 7 on the eastern cross streets, the canal at Twelfth South and sidewalk extension No. 109 in the southeastern part of the city. He will go over the city today and will continue these visits at all sorts of times.

DAMAGE SUIT SETTLED.

Ross Case Against D. & R. G. Is Dismissed.

Suit brought by Samuel Ross against the Denver & Rio Grande for \$3,225 damages for injuries said to have been received by being struck by a train at Eleventh South street in March of 1907, was dismissed yesterday on motion of the attorney for the company by Judge T. D. Lewis of the district court.

Ross was driving and the engine struck his wagon and demolished it, killing the horse and injuring the driver. A compromise has been effected.

Vapo-Cresolene

(Established 1879)

An Inhalation for
**Whooping-Cough, Croup,
Coughs, Colds, Catarrh,
Bronchitis, Diphtheria.**

Cresolene is a Balm to Asthmatics.

Does it not seem more effective to breathe in a remedy for diseases of the breathing organs than to take the remedy into the stomach?

Cresolene cures because the air, rendered strongly antiseptic, is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

For Irritated Throat there is nothing better than Cresolene Antiseptic Throat Lozenges.
